

# DIRECTIONS

1) Submit two identical copies of each piece entered—an original and a duplicate. Duplicate copies are not required for oversized entries, but may prove helpful during the judging process.

2) Entry tickets must be completed using codes on Call for Entries.

3) The appropriate entry stub must be affixed to the backside of both copies of each entry. If entries are too small, or attaching the entry stub would damage or detract from the piece, place both copies in a plastic sleeve and tape both entry stubs to the outside of the sleeve.

4) Record each entry on the Summary of Entries form enclosed and submit with payment. Print clearly and make a copy for your files in case of any questions during the entry process.
